

Jigsaw, the mindful approach to PSHE, is a progressive and spiral scheme of learning. In planning the lessons, Jigsaw PSHE ensures that learning from previous years is revisited and extended, adding new concepts, knowledge and skills, year on year as appropriate. The table below draws out the **spiral** knowledge and skills progression within all six Puzzles (units of work) including the key vocabulary used in each year group; explicit links to the DfE statutory Relationships and Health Education outcomes have been made in each Puzzle.

INTENT: Jigsaw holds children at its heart, and its cohesive vision helps children understand and value how they fit into and contribute to the world. With strong emphasis on emotional literacy, building resilience and nurturing mental and physical health, Jigsaw 3-11 properly equips schools to deliver engaging and relevant PSHE within a whole-school approach. Jigsaw lessons also include mindfulness allowing children to advance their emotional awareness, concentration, focus and self-regulation.

IMPLEMENTATION: Jigsaw 3-11 offers a comprehensive programme for Primary PSHE, including statutory Relationships and Health Education, in a spiral, progressive and fully planned scheme of work, giving children relevant learning experiences to help them navigate their world and to develop positive relationships with themselves and others.

IMPACT: This can be established through assessment identified in the key learning.

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
overview Being Me in My World	In this Puzzle (unit), the children learn about how they have similarities and differences from their friends and how that is OK. They begin working on recognising and managing their feelings, identifying different ones and the causes these can have. The children learn about working with others and why it is good to be kind and use gentle hands. They discuss children's rights, especially linked to the right to learn and the right to play. The children learn what it means to be responsible.	In this Puzzle (unit), the children are introduced to their Jigsaw Journals and discuss their Jigsaw Charter. As part of this, they discuss rights and responsibilities, and choices and consequences. The children learn about being special and how to make everyone feel safe in their class as well as recognising their own safety.	In this Puzzle (unit), the children discuss their hopes and fears for the year ahead — they talk about feeling worried and recognising when they should ask for help and who to ask. They learn about rights and responsibilities; how to work collaboratively, how to listen to each other and how to make their classroom a safe and fair place. The children learn about choices and the consequences of making different choices, set up their Jigsaw Journals and make the Jigsaw Charter.	In this Puzzle (unit), the children learn to recognise their self-worth and identify positive things about themselves and their achievements. They discuss new challenges and how to face them with appropriate positivity. The children learn about the need for rules and how these relate to rights and responsibilities. They explore choices and consequences, working collaboratively and seeing things from other people's points of view. The children learn about different feelings and the ability to recognise these feelings in themselves and others. They set up their Jigsaw Journals and establish the Jigsaw Charter.	In this Puzzle (unit), the children explore being part of a team. They talk about attitudes and actions and their effects on the whole class. The children learn about their school and its community, who all the different people are and what their roles are. They discuss democracy and link this to their own School Council, what its purpose is and how it works. The children learn about group work, the different roles people can have, how to	In this Puzzle (unit), the children think and plan for the year ahead, goals they could set for themselves as well as the challenges they may face. They explore their rights and responsibilities as a member of their class, school, wider community and the country they live in. The children learn about their own behaviour and its impact on a group as well as choices, rewards, consequences and the feelings associated with each. They also learn about democracy, how it benefits the school and how they can contribute towards it. They revisit the Jigsaw Charter and set up their Jigsaw Journals.	In this Puzzle (unit), the children discuss their year ahead, they learnt to set goals and discuss their fears and worries about the future. The children learn about the United Nations Convention on the Rights of the Child and that these are not met for all children worldwide. They discuss their choices and actions and how these can have farreaching effects, locally and globally. The children learn about their own behaviour and how their choices can result in rewards and consequences and how they feel about this. They explore an individual's behaviour and the impact it can have on a group. They learn talk about democracy, how it benefits the school and how they can contribute towards it. They establish the Jigsaw Charter and set up their Jigsaw Journals.			

Taught knowledge  (Key objectives are in bold)	<ul> <li>Know they have a right to learn and play, safely and happily</li> <li>Know that some people are different from themselves</li> </ul>	<ul> <li>Understand their own rights and responsibilities with their classroom</li> <li>Understand that their choices have consequences</li> </ul>	<ul> <li>Understand the rights and responsibilities of class members</li> <li>Know about rewards and consequences and that these stem from choices</li> </ul>	<ul> <li>Know that the school has a shared set of values</li> <li>Know why rules are needed and how these relate to choices and consequences</li> </ul>	<ul> <li>Know their place in the school community</li> <li>Know what democracy is (applied to pupil voice in school)</li> </ul>	<ul> <li>Understand how democracy and having a voice benefits the school community</li> <li>Understand how to contribute towards the democratic process</li> </ul>	<ul> <li>Know about children's universal rights (United Nations Convention on the Rights of the Child)</li> <li>Know about the lives of children in other parts of the world</li> </ul>
	Know that hands can be used kindly and unkindly	Understand that their views are important	<ul> <li>Know that it is important to listen to other people</li> </ul>	<ul> <li>Know that actions can affect others' feelings</li> </ul>	<ul> <li>Know how groups work together to reach a consensus</li> </ul>	<ul> <li>Understand the rights and responsibilities associated with being a citizen in the wider community and</li> </ul>	<ul> <li>Know that personal choices can affect others locally and globally</li> </ul>

	Dreams and Goals Puzzle – Spring 1											
_	EYFS	Year 1 Year 2 Year 3 Year 4 Year 5 Year										
DfE Statutory Relationships & Health Education outcomes	PSED ELG – SELF-REGULATION Set and work towards simple goals, being able to wait for what they want and control their immediate impulses when appropriate.  Give focused attention to what the teacher says, responding appropriately even when engaged in activity, and show an ability to follow instructions involving several ideas or actions.  PSED ELG: MANAGING SELF Be confident to try new activities and show independence, resilience and perseverance in the face of challenge.  PSED – ELG: BUILDING RELATIONSHIPS Work and play co-operatively and take turns with others.	REGULATION rk towards simple gable to wait for want and control diate impulses priate. (R12) the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different prefe beliefs (R13) practical steps they can take in a range of different contexts to improve or support respectful relationships (R14) the conventions of courtery and manners (R15) the importance of self-respect and how this links to their own happiness (R16) that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority (R17) about of types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help (R19) the importance of permission seeking and giving in relationships with friends, peers and adults.  Being safe (R30) how to ask for advice or help for themselves or others, and to keep trying until they are heard.  Being safe (R30) how to ask for advice or help for themselves or others, and to keep trying until they are heard.  Physical Health and Well-Being - By end of primary, pupils should know:  Mental well-being (H1) that mental well-being is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations (H3) how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings (H4) those there what they are feeling and how they are behaving is appropriate and proportionate (H7) isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support.										
Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6					
overview Celebrating Difference	In this Puzzle, the children consider challenges and facing up to them. They discuss not giving up and trying until they have achieved their goal. The children are encouraged to think about jobs that they might like to have when they are older and are taught to associate what they learn now with being able to have the job they want. They also talk about achieving goals and the feelings linked to this.	In this Puzzle, the children talk about setting simple goals, how to achieve them as well as overcoming difficulties when they try. The children learn to recognise the feelings associated with facing obstacles to achieving their goals as well as when they achieve them. They discuss partner working and how to do this well.	In this Puzzle, the children explore setting realistic goals and how they can achieve them. They discuss perseverance when they find things difficult as well as recognising their strengths as a learner. The children consider group work and reflect on with whom they work well and with whom they don't. They also reflect on sharing success with other people.	In this Puzzle, the children look at examples of people who have overcome challenges to achieve success and discuss what they can learn from these stories. The children identify their own dreams and ambitions and discuss how it will feel when they achieve them. They discuss facing learning challenges and identify their own strategies for overcoming these. The children consider obstacles that might stop them from achieving their goals and how to overcome these. They reflect on their progress and successes and identify what they could do better next time.	In this Puzzle, the children consider their hopes and dreams. They discuss how it feels when dreams don't come true and how to cope with/overcome feelings of disappointment. The children discuss making new plans and setting new goals even if they have been disappointed. The class explore group work and overcoming challenges together. They reflect on their successes and the feelings associated with overcoming a challenge.	In this Puzzle, the children share their dreams and goals and how they might need money to help them achieve them. They consider jobs that people they know do, they look at the fact that some jobs pay more money than others and reflect on what types of jobs they might like to do when they are older. The children look as the similarities and differences between themselves (and their dreams and goals) and someone from a different culture.	In this Puzzle, the children share their own strengths and further stretching themselves by setting challenging and realistic goals. They discuss the learning steps they will need to take as well as talking about how to stay motivated. The children reflect on various global issues and explore places where people may be suffering or living in difficult situations; whilst doing this, they reflect on their own emotions linked to this learning. The children also discover what they think their classmates like and admire about them, as well as working on giving others praise and compliments.					

Taught knowledge	Know what a challenge is	Know how to set simple goals	Know how to choose a realistic goal and think about how to achieve it	Know that they are responsible for their own learning	Know how to make a new plan and set new goals even if they have	Know about a range of jobs that are carried out by people I know	Know their own learning strengths
(Key objectives are in bold)	<ul> <li>Know that it is important to keep trying</li> <li>Know what a goal is</li> <li>Know how to set goals and work towards them</li> <li>Know which words</li> </ul>	<ul> <li>Know how to achieve a goal</li> <li>Know how to identify obstacles which make achieving their goals difficult and work out how to overcome them</li> </ul>	<ul> <li>Know that it is important to persevere</li> <li>Know how to recognise what working together well looks like</li> <li>Know what good group-</li> </ul>	<ul> <li>Know what an obstacle is and how they can hinder achievement</li> <li>Know how to take steps to overcome obstacles</li> </ul>	<ul> <li>Know how to work as part of a successful group</li> <li>Know how to share in the success of a group</li> </ul>	<ul> <li>Know the types of job they might like to do when they are older</li> <li>Know that young people from different cultures may have different dreams and goals</li> </ul>	<ul> <li>Know what their classmates like and admire about them</li> <li>Know a variety of problems that the world is facing</li> <li>Know some ways in which</li> </ul>
	<ul> <li>Know some jobs that they might like to do when they are older</li> <li>Know that they must work hard now in order to be able to achieve the job they want when they are older</li> <li>Know when they have achieved a goal</li> </ul>	<ul> <li>Know when a goal has been achieved</li> <li>Know how to work well with a partner</li> <li>Know that tackling a challenge can stretch their learning</li> </ul>	Know how to share success with other people	<ul> <li>Know what dreams and ambitions are important to them</li> <li>Know about specific people who have overcome difficult challenges to achieve success</li> <li>Know how they can best overcome learning challenges</li> <li>Know what their own strengths are as a learner</li> <li>Know how to evaluate their own learning progress and identify how it can be better next time</li> </ul>	<ul> <li>Know what their own hopes and dreams are</li> <li>Know that hopes and dreams don't always come true</li> <li>Know that reflecting on positive and happy experiences can help them to counteract disappointment</li> <li>Know how to work out the steps they need to take to achieve a goal</li> </ul>	<ul> <li>Know that they will need money to help them to achieve some of their dreams</li> <li>Know that different jobs pay more money than others</li> <li>Know that communicating with someone from a different culture means that they can learn from them and vice versa</li> <li>Know ways that they can support young people in their own culture and abroad</li> </ul>	<ul> <li>they could work with others to make the world a better place</li> <li>Know what the learning steps are they need to take to achieve their goal</li> <li>Know how to set realistic and challenging goals</li> </ul>

Social and Emotional skills  (Key objectives are in bold)	<ul> <li>Understand that challenges can be difficult</li> <li>Resilience</li> <li>Recognise some of the feelings linked to perseverance</li> <li>Recognise how kind words can encourage people</li> <li>Talk about a time that they kept on trying and achieved a goal</li> <li>Be ambitious</li> <li>Feel proud</li> <li>Celebrate success</li> </ul>	<ul> <li>Recognise things that they do well</li> <li>Explain how they learn best</li> <li>Recognise their own feelings when faced with a challenge/obstacle</li> <li>Recognise how they feel when they overcome a challenge/obstacle</li> <li>Celebrate an achievement with a friend</li> <li>Can store feelings of success so that they can be used in the future</li> </ul>	<ul> <li>Recognise how working with others can be helpful</li> <li>Be able to work effectively with a partner</li> <li>Be able to choose a partner with whom they work well</li> <li>Be able to work as part of a group</li> <li>Be able to describe their own achievements and the feelings linked to this</li> <li>Recognise their own strengths as a learner</li> <li>Recognise how it feels to be part of a group that succeeds and store this feeling</li> </ul>	<ul> <li>Can break down a goal into small steps</li> <li>Can manage feelings of frustration linked to facing obstacles</li> <li>Imagine how it will feel when they achieve their dream/ambition</li> <li>Recognise other people's achievements in overcoming difficulties</li> <li>Recognise how other people can help them to achieve their goals</li> <li>Can share their success with others</li> <li>Can store feelings of success (in their internal treasure chest) to be used at another time</li> </ul>	<ul> <li>Have a positive attitude</li> <li>Can identify the feeling of disappointment</li> <li>Be able to cope with disappointment</li> <li>Can identify what resilience is</li> <li>Can identify a time when they have felt disappointed</li> <li>Can talk about their hopes and dreams and the feelings associated with these</li> <li>Help others to cope with disappointment</li> <li>Enjoy being part of a group challenge</li> <li>Can share their success with others</li> <li>Can store feelings of success (in their internal treasure chest) to be used at another time</li> </ul>	<ul> <li>Verbalise what they would like their life to be like when they are grown up</li> <li>Appreciate the contributions made by people in different jobs</li> <li>Reflect on the differences between their own learning goals and those of someone from a different culture</li> <li>Appreciate the differences between themselves and someone from a different culture</li> <li>Understand why they are motivated to make a positive contribution to supporting others</li> <li>Appreciate the opportunities learning and education can give them</li> </ul>	<ul> <li>Understand why it is important to stretch the boundaries of their current learning</li> <li>Be able to give praise and compliments to other people when they recognise that person's achievements</li> <li>Empathise with people who are suffering or living in difficult situations</li> <li>Set success criteria so that they know when they have achieved their goal</li> <li>Recognise the emotions they experience when they consider people in the world who are suffering or living in difficult circumstances</li> </ul>

# Physical Health and Well-Being – By end of primary, pupils should know:

### Mental well-being

- (H1) that mental well-being is a normal part of daily life, in the same way as physical health
- (H2) that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations
- (H3) how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings
- (H4) how to judge whether what they are feeling and how they are behaving is appropriate and proportionate
- (H5) the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness
- (H6) simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests
- (H7) isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support
- (H8) that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being
- (H9) where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online)
- (H10) it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

# Internet safety and harms

- (H11) that for most people the internet is an integral part of life and has many benefits
- (H12) about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical well-being
- (H13) how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private
- (H14) why social media, some computer games and online gaming, for example, are age restricted
- (H15) that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health
- (H16) how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted

Year 3

(H17) where and how to report concerns and get support with issues online.

# **Physical health and fitness**

Year 1

- (H18) the characteristics and mental and physical benefits of an active lifestyle
- (H21) how and when to seek support including which adults to speak to in school if they are worried about their health.

Puzzle
Overview
Relationships

# Children are introduced to the key relationships in their lives. They learn about families and the different roles people can have in a family. They explore the friendships they have and what makes a good friend. They are introduced to simple strategies they can use to mend friendships. The children also practise Jigsaw's Calm Me and how they can use this when feeling upset or angry.

**EYFS** 

Children's breadth of relationships is widened to include people they may find in their school community. They consider their own significant relationships (family, friends and school community) and why these are special and important. As part of the lessons on healthy and safe relationships, children learn that touch can be used in kind and unkind ways. This supports later work on safeguarding. Pupils also consider their own personal attributes as a friend, family member and as part of a community, and are encouraged to celebrate these.

Learning about family relationships widens to include roles and responsibilities in a family and the importance of cooperation, appreciation and trust. Friendships are also revisited with a focus on falling out and mending friendships. This becomes more formalised and the children learn and practise two different strategies for conflict resolution (Solve it together and Mending Friendships). Children consider the importance of trust in relationships and what this feels like. They also learn about two types of secret, and why 'worry secrets' should always be shared with a trusted adult. Children reflect upon different types of physical contact in relationships, which are acceptable and which ones are not. They practise strategies for being assertive when someone is hurting them or

being unkind. The children also

Year 2

In this Puzzle, children revisit family relationships and identify the different expectations and roles that exist within the family home. They identify why stereotypes can be unfair and may not be accurate, e.g. Mum is the carer, Dad goes to work. They also look at careers and why stereotypes can be unfair in this context. They learn that families should be founded on love, respect, appreciation, trust and co-operation. Children are reminded about the Solve it together technique for negotiating conflict situations and the concept of a win-win outcome is introduced.

Online relationships through gaming and apps are explored and children are introduced to some rules for staying safe online. Children also learn that they are part of a global community and they are

Learning in this year group starts focussing on the emotional aspects of relationships and friendships. With this in mind, children explore jealousy and loss/ bereavement. They identify the emotions associated with these relationship changes, the possible reasons for the change and strategies for coping with the change. The children learn that change is a natural in relationships and they will experience (or may have already experienced) some of these changes. Children revisit skills of negotiation particularly to help manage a change in a relationship. They also learn that sometimes it is better if relationships end, especially if they are causing negative feelings or they are unsafe. Children are taught that

Year 4

Children learn about the importance of self-esteem and ways this can be boosted. This is important in an online context as well as offline, as mental health can be damaged by excessive comparison with others. This leads onto a series of lessons that allow the children to investigate and reflect upon a variety of positive and negative online/social media contexts including gaming and social networking. They learn about agelimits and also age-appropriateness. Within these lessons, children are taught the SMARRT internet safety rules and they apply these in different situations. Risk, pressure and influences are revisited with a focus on the physical and emotional aspects of identifying when something online or in social media feels uncomfortable or unsafe. Children are taught about grooming and how people online can pretend to be whoever they want. Rights, responsibilities and respect are revisited with an angle on technology

Year 5

In this Puzzle, the children learn more about mental health and how to take care of their own mental well-being. They explore the grief cycle and its various stages, and discuss the different causes of grief and loss. The children learn about people who can try to control them or have power over them. They investigate online safety, learning how to judge if something is safe and helpful, as well as talking about communicating with friends and family in a positive and safe way.

Year 6

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Overview Changing Me	Children are encouraged to think about how they have changed from being a baby and what may change for them in the future. They consolidate the names and functions of some of the main parts of the body and discuss how these have changed. They learn that our bodies change in lots of different ways as we get older. Children understand that change can bring about positive and negative feelings, and that sharing these can help. They also consider the role that memories can have in managing change.	Children are introduced to life cycles, e.g. that of a frog and identify the different stages. They compare this with a human life cycle and look at simple changes from baby to adult, e.g. getting taller, learning to walk, etc. They discuss how they have changed so far and that people grow up at different rates. As part of a school's safeguarding duty, pupils are taught the correct words for private parts of the body (those kept private by underwear). They are also taught that nobody has the right to hurt these parts of the body. Change is discussed as a natural and normal part of getting older which can bring about happy and sad feelings. Children practise a range of skills to help manage their feelings and learn how to access help if they are worried about change, or if someone is hurting them.	In this Puzzle, children compare different life cycles in nature, including that of humans. They reflect on the changes that occur (not including puberty) between baby, toddler, child, teenager, adult and old age. Within this, children also discuss how independence, freedoms and responsibility can increase with age. As part of a school's safeguarding duty, pupils are retaught the correct words for private parts of the body (those kept private by underwear). They are also reminded that nobody has the right to hurt these parts of the body, including a lesson on inappropriate touch and assertiveness. Children practise a range of strategies for managing feelings and emotions. They are also taught where they can get help if worried or frightened. Change is taught as a natural and normal part of growing up and the range of emotions that can occur with change are explored and discussed.	This Puzzle begins learning about babies and what they need to grow and develop including parenting. Children are taught that it is usually the female that carries the baby in nature. This leads onto lessons where puberty is introduced. Children first look at the outside body changes in males and females. They learn that puberty is a natural part of growing up and that it is a process for getting their bodies ready to make a baby when grown-up. Inside body changes are also taught. Children learn that females have eggs (ova) in their ovaries and these are released monthly. If unfertilised by a male's sperm, it passes out of the body as a period. Children discuss how they feel about puberty and growing up and there are opportunities for them to seek reassurance if anything is worrying them.	In this Puzzle, bodily changes at puberty are revisited with some additional vocabulary, particularly around menstruation. Sanitary health is taught, including introducing pupils to different sanitary and personal hygiene products. The Puzzle ends by looking at the feelings associated with change and how to manage these. Children are introduced to Jigsaw's Circle of change model as a strategy for managing future changes.	In this Puzzle, the children revisit self-esteem, self-image and body image. They learn that we all have perceptions about ourselves and others, and these may be right or wrong. They also reflect on how social media and the media can promote unhelpful comparison and how to manage this. Puberty is revisited in further detail, explaining bodily changes in males and females. Sexual intercourse is explained. Children are encouraged to ask questions and seek clarification about anything they don't understand. Further details about pregnancy are introduced including some facts about the development of the foetus and some simple explanation about alternative ways of conception, e.g. IVF. Children learn that having a baby is a personal choice. Details of contraceptive options and methods are not taught as this is not age appropriate. Reasons why people choose to be in a romantic relationship and choose to have a baby are also explored. Children look at what becoming a teenager means for them with an increase in freedom, rights and responsibilities. They also consider the perceptions that surround teenagers and reflect whether they are always moody; all teenagers have a boyfriend/girlfriend, etc.	In this Puzzle, the children learn about puberty in boys and girls and the changes that will happen; they reflect on how they feel about these changes. The children also learn about childbirth and the stages of development of a baby, starting at conception. They explore what it means to be being physically attracted to someone and the effect this can have upon the relationship. They learn about different relationships and the importance of mutual respect and not pressuring/being pressured into doing something that they don't want to. The children also learn about self-esteem, why it is important and ways to develop it. Finally, they look at the transition to secondary school (or next class) and what they are looking forward to/are worried about and how they can prepare themselves mentally.

Social and	<ul> <li>Know who to talk to if they are feeling worried</li> <li>Know that sharing how they feel can help solve a worry</li> <li>Know that remembering happy times can help us move on</li> <li>Recognise that</li> </ul>	<ul> <li>Now which parts of the body are private and that they belong to that person and that nobody has the right to hurt these</li> <li>Know who to ask for help if they are worried or frightened</li> <li>Know that animals including humans have a life cycle</li> <li>Know that changes happen when we grow up</li> <li>Know that people grow up at different rates and that is normal</li> <li>Know that learning brings about change</li> <li>Understand and accept</li> </ul>	<ul> <li>Know who to ask for help if they are worried or frightened</li> <li>Know there are different types of touch and that some are acceptable and some are unacceptable</li> <li>Know the correct names for private body parts</li> <li>Know that life cycles exist in nature</li> <li>Know that aging is a natural process including old age</li> <li>Know that some changes are out of an individual's control</li> <li>Know how their bodies have changed from when they were a baby and that they will continue to change as they age</li> <li>Can say who they would</li> </ul>	<ul> <li>outside body changes that happen during puberty</li> <li>Know some of the changes on the inside that happen during puberty</li> <li>Know that in animals and humans lots of changes happen between conception and growing up</li> <li>Know that in nature it is usually the female that carries the baby</li> <li>Know that in humans a mother carries the baby in her uterus (womb) and this is where it develops</li> <li>Know that babies need love and care from their parents/carers</li> <li>Know some of the changes that happen between being a baby and a child</li> <li>Can express how they</li> </ul>	<ul> <li>Know that babies are made by a sperm joining with an ovum</li> <li>Know how the female and male body change at puberty</li> <li>Know that change can bring about a range of different emotions</li> <li>Know that personal hygiene is important during puberty and as an adult</li> <li>Know that change is a normal part of life and that some cannot be controlled and have to be accepted</li> <li>Can appreciate their</li> </ul>	<ul> <li>Know that some people need help to conceive and might use IVF</li> <li>Know that becoming a teenager involves various changes and also brings growing responsibility</li> <li>Know what perception means and that perceptions can be right or wrong</li> <li>Can celebrate what they like</li> </ul>	develops from conception through the nine months of pregnancy and how it is born  • Know how being physically attracted to someone changes the nature of the relationship  • Know the importance of self-esteem and what they can do to develop it  • Know what they are looking forward to and what they are worried about when thinking about transition to secondary school/moving to their next class
Emotional skills (Key objectives are in bold)	changing class can elicit happy and/or sad emotions  Can say how they feel about changing class/ growing up  Can identify how they have changed from a baby  Can say what might change for them they	<ul> <li>that change is a natural part of getting older</li> <li>Can suggest ways to manage change, e.g. moving to a new class</li> <li>Can identify some things that have changed and some things that have stayed the same since being a baby (including the body)</li> </ul>	<ul> <li>go to for help if worried or scared</li> <li>Can say what types of touch they find comfortable/uncomfortable</li> <li>Be able to confidently ask someone to stop if they are being hurt or frightened</li> </ul>	Can say who they can talk to about puberty if they have any worries     Can suggest ways to help them manage feelings during changes they are more anxious about  PSHE Ltd — Lindated 29 Sentem.	<ul> <li>own uniqueness and that of others</li> <li>Can express any concerns they have about puberty</li> <li>Have strategies for managing the emotions relating to change</li> </ul>	<ul> <li>about their own and others' self-image and body image</li> <li>Can suggest ways to boost self-esteem of self and others</li> <li>Recognise that puberty is a natural process that happens to everybody and that it will be OK for them</li> </ul>	<ul> <li>develop their own selfesteem</li> <li>Can express how they feel about the changes that will happen to them during puberty</li> <li>Know myself well enough to maintain positive relationships with others whilst keeping my own identity</li> </ul>

	e Can identify positive memories from the past year in school/home	Can express why they enjoy learning	<ul> <li>Can appreciate that changes will happen and that some can be controlled and others not</li> <li>Be able to express how they feel about changes</li> <li>Show appreciation for people who are older</li> <li>Can recognise the independence and responsibilities they have now compared to being a baby or toddler</li> <li>Can say what greater responsibilities and freedoms they may have in the future</li> <li>Can say what they are looking forward to in the next year</li> </ul>	<ul> <li>Can identify stereotypical family roles and challenge these ideas, e.g. it may not always be Mum who does the laundry</li> <li>Can express how they feel about babies</li> <li>Can describe the emotions that a new baby can bring to a family</li> <li>Can identify changes they are looking forward to in the next year</li> </ul>	<ul> <li>Can express how they feel about having children when they are grown up</li> <li>Can say who they can talk to about puberty if they are worried</li> <li>Can apply the circle of change model to themselves to have strategies for managing change</li> </ul>	<ul> <li>Can ask questions about puberty to seek clarification</li> <li>Can express how they feel about having a romantic relationship when they are an adult</li> <li>Can express how they feel about having children when they are an adult</li> <li>Can express how they feel about becoming a teenager</li> <li>Can say who they can talk to if concerned about puberty or becoming a teenager/adult</li> </ul>	<ul> <li>Be assertive when appropriate</li> <li>Recognise how they feel when they reflect on the development and birth of a baby</li> <li>Can celebrate what they like about their own and others' self-image and body image</li> <li>Use strategies to prepare themselves emotionally for the transition (changes) to secondary school</li> </ul>

**SMSC Links**: Every Jigsaw lesson from Early Years to upper primary offers opportunities for children's **spiritual, moral, social and cultural (SMSC) development**, and this is clearly mapped and balanced across each year group. Likewise, Jigsaw is designed to provide structured opportunities in every lesson to practise **and enhance the five skills associated with the emotional literacy (self-awareness, social skills, empathy, motivation and managing <b>feelings)**. At Jigsaw, we believe that these opportunities are vital for children's development, their understanding of themselves and others and in increasing their capacity to learn.

**British Values**: Jigsaw PSHE 3-11 supports the **British Values** of Democracy, Rule of Law, Individual Liberty, Mutual Respect and Tolerance of those of different faiths and beliefs. It has been mapped lesson by lesson against the British Values agenda.
