

The Early Years Foundation Stage at St. Michael's

Curriculum Intent

At St. Michael's our curriculum intent is to create a happy, safe and nurturing environment where children develop their independence and become resilient learners, while developing positive and respectful relationships with their peers and adults within the school. We will provide an enabling environment which excites and motivates children to play and explore and scaffold them to develop their own ideas, make links between ideas and develop strategies for doing things independently.

Our environment provides stimulating indoor and outdoor experiences where children can safely explore risk taking and challenge their own learning. We make sure learning is accessible for all children, matched to their developmental needs and scaffolded to support their progression of learning.

We will observe children on entry to build on the skills, knowledge and understanding that they have and use this information to develop the children holistically and will ensure that provision is made to support their interest's. We will work closely and collaboratively with parents to ensure we value home experiences and develop a true reflection of the whole child throughout their reception year.

Curriculum Implementation

At St. Michael's we follow the Early Years Foundation Stage framework. This is made up of **four overriding principles** which our early year's education is based upon:

- **Unique Child** – Every child is a unique child who is constantly learning and can be resilient, capable, confident and self-assured.
- **Positive Relationships** – Children learn to be strong and independent through positive relationships.
- **Enabling Environments** – Children learn and develop well in enabling environments, in which their experiences respond to their individual needs and there is a strong partnership between practitioners and parents and carers.
- **Learning and Development** – Children develop and learn in different ways. The framework covers the education and care of all children in early year's provision, including children with special educational needs and disabilities.

The curriculum provides a play-based learning environment, combined with focussed teaching and basic skills, to ensure children make rapid progress before moving onto Year 1. The children in Reception are provided with ample opportunities accessible in our indoor and outdoor provision. They engage in planned, focussed activities as well as self-initiated and free flow activities. The learning experiences within our Early Years are linked to the seven areas of learning and development within the EYFS. These areas are split into three prime areas and four specific areas.

The three prime areas are those which the children should develop first and are considered most essential for the healthy development and future learning of our children. These include:

- **Personal, Social and Emotional Development**
- **Communication and Language**
- **Physical Development**

As children grow and make progress in the prime areas, this will help them to naturally develop skills within the four specific areas. These are:

- **Literacy**
- **Mathematics**
- **Understanding the World**
- **Expressive Arts and Design**

We also incorporate the characteristics of effective learning (COEL) into all teaching and learning experiences. These are:

- **Playing and exploring** - children investigate and experience things, and ‘have a go’
- **Active learning** - children concentrate and keep on trying if they encounter difficulties, and enjoy achievements
- **Creating and thinking critically** - children have and develop their own ideas, make links between ideas, and develop strategies for doing things

At St. Michael’s, children are taught the skills required in the EYFS through half-termly topics which will spark children’s interests. The pupils are encouraged to wonder and ask questions about what they are learning, and this information is used to plan subsequent activities.

Children have whole class input sessions covering the specific areas of literacy and maths as well as daily phonic lessons. We engage in collective worship throughout the week and have weekly religious education sessions. Children will engage in short adult led group activities which are planned for linked to our learning of the week. These sessions are planned with care, meeting the needs of all children, using prior knowledge of the child’s learning experiences and guidance from the EYFS document ‘Development Matters’, 2021. All children will be supported in reading by daily 1:1 sessions and encouraged to read throughout their daily phonics lessons.

Ensuring children are learning and making progress is fundamental. We carry out daily observations of children’s learning, having formal and informal conversations between staff members to identify areas which individuals may need support or general whole class support. Parents are regularly informed about their child’s progress through day-to-day discussions, and we provide termly meetings to inform parents of their progress. This allows us to give them the next steps of learning for their child. We are also able to give them information on how to support their child at home.

With a focus on Speech and Language we assess our children’s Communication and Language development through the programmes Welcomm and NELI. We use the assessment data to inform our planning and where necessary we provide extra support for children in order for them to make accelerated progress.

Curriculum Impact

At St. Michael's the impact of our curriculum is measured by how effectively it helps our children develop into well rounded individuals who embody our school and vision and values and 'Shine as lights in the world'. They will carry with them the knowledge, skills and attitudes which will make them lifelong learners through the delivery of a well-planned, child-led and challenging curriculum.

Throughout the year class teachers will use daily observations and interactions with children to make formative assessments which inform future planning and ensure that all children build on their current knowledge and skills at a good pace. Each term teachers will have professional discussions as well as conversations with parents to ensure progress is being made against age related expectations using 'Development Matters' to help support their judgements. These ongoing assessments do not involve prolonged periods of time away from the children but support and enable class teachers to identify early support for children and to put interventions in place if needed. Teachers will draw on their knowledge of the individual children and use their own expert professional judgements to assess the children against the Early Learning Goals.

We aim that the pupils will leave the Early Years Foundation Stage as independent learners, with transferrable skills needed that enables them to be ready to start Key Stage One.

The Statutory Framework and The Early Learning Goals

Communication and Language

The development of children's spoken language underpins all seven areas of learning and development. Children's back-and-forth interactions from an early age form the foundations for language and cognitive development. The number and quality of the conversations they have with adults and peers throughout the day in a language-rich environment is crucial. By commenting on what children are interested in or doing, and echoing back what they say with new vocabulary added, practitioners will build children's language effectively. Reading frequently to children, and engaging them actively in stories, non-fiction, rhymes and poems, and then providing them with extensive opportunities to use and embed new words in a range of contexts, will give children the opportunity to thrive. Through conversation, story-telling and role play, where children share their ideas with support and modelling from their teacher, and sensitive questioning that invites them to elaborate, children become comfortable using a rich range of vocabulary and language structures.

ELG: *Listening, Attention and Understanding* - Children at the expected level of development will:

- Listen attentively and respond to what they hear with relevant questions, comments and actions when being read to and during whole class discussions and small group interactions;
- Make comments about what they have heard and ask questions to clarify their understanding;
- Hold conversation when engaged in back-and-forth exchanges with their teacher and peers.

ELG: *Speaking - Children* at the expected level of development will:

- Participate in small group, class and one-to-one discussions, offering their own ideas, using recently introduced vocabulary;
- Offer explanations for why things might happen, making use of recently introduced vocabulary from stories, non-fiction, rhymes and poems when appropriate;
- Express their ideas and feelings about their experiences using full sentences, including use of past, present and future tenses and making use of conjunctions, with modelling and support from their teacher.

Personal, Social and Emotional Development

Children's personal, social and emotional development (PSED) is crucial for children to lead healthy and happy lives and is fundamental to their cognitive development. Underpinning their personal development are the important attachments that shape their social world. Strong, warm and supportive 9 relationships with adults enable children to learn how to understand their own feelings and those of others. Children should be supported to manage emotions, develop a positive sense of self, set themselves simple goals, have confidence in their own abilities, to persist and wait for what they want and direct attention as necessary. Through adult modelling and guidance, they will learn how to look after their bodies, including healthy eating, and manage personal needs independently. Through supported interaction with other children, they learn how to make good friendships, co-operate and resolve conflicts peaceably. These attributes will provide a secure platform from which children can achieve at school and in later life.

ELG: *Self-Regulation* - Children at the expected level of development will:

- Show an understanding of their own feelings and those of others, and begin to regulate their behaviour accordingly;
- Set and work towards simple goals, being able to wait for what they want and control their immediate impulses when appropriate;
- Give focused attention to what the teacher says, responding appropriately even when engaged in activity, and show an ability to follow instructions involving several ideas or actions.

ELG: *Managing Self- Children* at the expected level of development will:

- Be confident to try new activities and show independence, resilience and perseverance in the face of challenge;
- Explain the reasons for rules, know right from wrong and try to behave accordingly;
- Manage their own basic hygiene and personal needs, including dressing, going to the toilet and understanding the importance of healthy food choices.

ELG: *Building Relationships* - Children at the expected level of development will:

- Work and play cooperatively and take turns with others;
- Form positive attachments to adults and friendships with peers;
- Show sensitivity to their own and to others' needs.

Physical Development

Physical activity is vital in children's all-round development, enabling them to pursue happy, healthy and active lives⁷. Gross and fine motor experiences develop incrementally throughout early childhood, starting with sensory explorations and the development of a child's strength, co-ordination and positional awareness through tummy time, crawling and play movement with both objects and adults. By creating games and providing opportunities for play both indoors and outdoors, adults can support children to develop their core strength, stability, balance, spatial awareness, co-ordination and agility. Gross motor skills provide the foundation for developing healthy bodies and social and emotional well-being. Fine motor control and precision helps with hand-eye co-ordination, which is later linked to early literacy. Repeated and varied opportunities to explore and play with small world activities, puzzles, arts and crafts and the practice of using small tools, with feedback and support from adults, allow children to develop proficiency, control and confidence.

ELG: Gross Motor Skills - Children at the expected level of development will:

- Negotiate space and obstacles safely, with consideration for themselves and others;
- Demonstrate strength, balance and coordination when playing;
- Move energetically, such as running, jumping, dancing, hopping, skipping and climbing.

ELG: Fine Motor Skills - Children at the expected level of development will:

- Hold a pencil effectively in preparation for fluent writing – using the tripod grip in almost all cases;
- Use a range of small tools, including scissors, paint brushes and cutlery;
- Begin to show accuracy and care when drawing.

Literacy

It is crucial for children to develop a life-long love of reading. Reading consists of two dimensions: language comprehension and word reading. Language comprehension (necessary for both reading and writing) starts from birth. It only develops when adults talk with children about the world around them and the books (stories and non-fiction) they read with them, and enjoy rhymes, poems and songs together. Skilled word reading, taught later, involves both the speedy working out of the pronunciation of unfamiliar printed words (decoding) and the speedy recognition of familiar printed words. Writing involves transcription (spelling and handwriting) and composition (articulating ideas and structuring them in speech, before writing).

ELG: Comprehension - Children at the expected level of development will:

- Demonstrate understanding of what has been read to them by retelling stories and narratives using their own words and recently introduced vocabulary;
- Anticipate – where appropriate – key events in stories;
- Use and understand recently introduced vocabulary during discussions about stories, non-fiction, rhymes and poems and during role-play.

ELG: Word Reading - Children at the expected level of development will:

- Say a sound for each letter in the alphabet and at least 10 digraphs;
- Read words consistent with their phonic knowledge by sound-blending;
- Read aloud simple sentences and books that are consistent with their phonic knowledge, including some common exception words.

ELG: Writing - Children at the expected level of development will:

- Write recognisable letters, most of which are correctly formed;
- Spell words by identifying sounds in them and representing the sounds with a letter or letters;
- Write simple phrases and sentences that can be read by others.

Mathematics

Developing a strong grounding in number is essential so that all children develop the necessary building blocks to excel mathematically. Children should be able to count confidently, develop a deep understanding of the numbers to 10, the relationships between them and the patterns within those numbers. By providing frequent and varied opportunities to build and apply this understanding - such as using manipulatives, including small pebbles and tens frames for organising counting - children will develop a secure base of knowledge and vocabulary from which mastery of mathematics is built. In addition, it is important that the curriculum includes rich opportunities for children to develop their spatial reasoning skills across all areas of mathematics including shape, space and measures. It is important that children develop positive attitudes and interests in mathematics, look for patterns and relationships, spot connections, 'have a go', talk to adults and peers about what they notice and not be afraid to make mistakes.

ELG: Number - Children at the expected level of development will:

- Have a deep understanding of number to 10, including the composition of each number;
- Subitise (recognise quantities without counting) up to 5;
- Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.

ELG: Numerical Patterns - Children at the expected level of development will:

- Verbally count beyond 20, recognising the pattern of the counting system;
- Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity;
- Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed equally.

Understanding the World

Understanding the world involves guiding children to make sense of their physical world and their community. The frequency and range of children's personal experiences increases their knowledge and sense of the world around them – from visiting parks, libraries and museums to meeting important members of society such as police officers, nurses and firefighters. In addition, listening to a broad selection of stories, non-fiction, rhymes and poems will foster their understanding of our culturally, socially, technologically and ecologically diverse world. As well as building important knowledge, this extends their familiarity with words that support understanding across domains. Enriching and widening children's vocabulary will support later reading comprehension.

ELG: Past and Present - Children at the expected level of development will:

- Talk about the lives of the people around them and their roles in society;
- Know some similarities and differences between things in the past and now, drawing on their experiences and what has been read in class;
- Understand the past through settings, characters and events encountered in books read in class and storytelling.

ELG: People, Culture and Communities - Children at the expected level of development will:

- Describe their immediate environment using knowledge from observation, discussion, stories, non-fiction texts and maps;
- Know some similarities and differences between different religious and cultural communities in this country, drawing on their experiences and what has been read in class;
- Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps.

ELG: The Natural World - Children at the expected level of development will:

- Explore the natural world around them, making observations and drawing pictures of animals and plants;
- Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class;
- Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter.

Expressive Arts and Design

The development of children's artistic and cultural awareness supports their imagination and creativity. It is important that children have regular opportunities to engage with the arts, enabling them to explore and play with a wide range of media and materials. The quality and variety of what children see, hear and participate in is crucial for developing their understanding, self-expression, vocabulary and ability to communicate through the arts. The frequency, repetition and depth of their experiences are fundamental to their progress in interpreting and appreciating what they hear, respond to and observe.

ELG: *Creating with Materials* - Children at the expected level of development will:

- Safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function;
- Share their creations, explaining the process they have used;
- Make use of props and materials when role playing characters in narratives and stories.

ELG: *Being Imaginative and Expressive - Children* at the expected level of development will:

- Invent, adapt and recount narratives and stories with peers and their teacher;
- Sing a range of well-known nursery rhymes and songs; Perform songs, rhymes, poems and stories with others, and – when appropriate – try to move in time with music.
